

Correction Notice: Fluorescent Labeling of Rat-tail Collagen for 3D Fluorescence Imaging

Andrew D. Doyle*

National Institute of Dental and Craniofacial Research, National Institutes of Health, Bethesda Maryland, USA

*For correspondence: adoyle@mail.nih.gov

After official publication of our protocol in Bio-protocol (<https://bio-protocol.org/e2919>) we noted an error in the protocol.

The recipe for making the Sodium Chloride (NaCl), 8% solution (recipe #7) is off by a factor of 10 due to a numerical error: 4 grams, instead of 40 grams of NaCl. Accordingly, we have now corrected the recipe:

Sodium Chloride (NaCl), 8% solution

Dissolve **40** g NaCl (Sigma-Aldrich) in 500 ml distilled water, mix well

Filter sterilize using a 0.2 μ m filter
