

Correction Notice: Labeling and Isolation of Fluorouracil Tagged RNA by Cytosine Deaminase Expression

Harihar Basnet and Joan Massague*

Cancer Biology and Genetics Program, Memorial Sloan Kettering Cancer Center, 1275 York Avenue, New York, NY 10065, USA

*For correspondence: j-massague@ski.mskcc.org

In Procedure C, page 4 of our Bio-protocol paper, <https://bio-protocol.org/e3433>, we notice some mistakes. “250 µg/kg 5-FC” should be “250 mg/kg of 5-FC”. “125 µg/kg of thymine” should be “125 mg/kg of thymine”. The correct text should be:

Day 31

4. Inject the mice with 250 **mg**/kg 5-FC in PBS (12.5 µg/ml stock) intraperitoneally, and 125 **mg**/kg thymine in PBS (6.25 µg/ml stock) subcutaneously.
