After official publication, we would like to correct a mistake in the catalog number of an *E. coli* strain we listed in the "Materials and Reagents" section of our protocol (<https://bio-protocol.org/e5048>).

The second strain is currently listed as:

2. B95(DE3) $\Delta A\Delta fabR$ (Addgene, catalog number: 197655).

The correct catalog number should be:

2. B95(DE3) $\Delta A\Delta fabR$ (Addgene, catalog number: 197934).
